This section should only be completed by a station if the FCC's Signal Loss Report, available on <http://www.dtv.gov>, predicts that 2 percent or more of the population in that station's Grade B analog service contour will not receive that station's digital signal (See 47 C.F.R. § 73.674(b)(5) for additional details). "Phased transition" stations are exempt from this requirement unless their full authorized facility is predicted to experience this 2 percent or greater loss.
